

Prochem Galaxy – Carpet Cleaning Machine with Stainless Steel Wand and 4.6m Hose

Variant code: 16-AX500

A compact and powerful carpet extraction machine with excellent performance. Powerful 150psi pump and 2 stage vacuum motors mean the Galaxy delivers the same cleaning performance as larger machines. A heating unit clips onto the back of the machine which heats water as it is required. Folding handle and compact design mean you can easily transport it around in the back of a vehicle. Includes free Prochem carpet cleaning training course.
