Prochem Galaxy - Carpet Cleaning Machine with Stainless Steel Wand and 4.6m Hose

Variant code: 16-AX500

Prochem Galaxy is a compact yet powerful **carpet and upholstery extraction machine** designed to deliver professional cleaning performance in a highly portable package. Combining powerful extraction technology, integrated heating capability and exceptional manoeuvrability, the Galaxy is an ideal solution for professional cleaners, facilities management teams and carpet care specialists working across residential and commercial environments.

Despite its compact size, the Galaxy delivers cleaning performance comparable to much larger extraction machines. Equipped with a powerful **150 psi solution pump** and **twin 2-stage vacuum motors**, the machine effectively removes embedded dirt, stains and contaminants from carpets and upholstery while providing excellent moisture recovery to help reduce drying times. An integrated heating unit conveniently clips onto the rear of the machine and heats water on demand, enhancing cleaning effectiveness and improving results on heavily soiled surfaces.

Designed with portability and ease of use in mind, the Galaxy features a folding handle and compact chassis, making it easy to transport and store between jobs. Supplied complete with a **stainless steel cleaning wand** and **4.6 metre hose assembly**, the machine is ready for immediate use. Combining powerful performance, portability and professional-grade reliability, the Prochem Galaxy is a versatile extraction solution for a wide range of carpet and upholstery cleaning applications.

Product Features

- **Professional carpet and upholstery extraction machine**
- Powerful **150 psi solution pump**
- **Twin 2-stage vacuum motors** for excellent recovery performance
- Integrated clip-on heating unit for on-demand hot cleaning solution
- Compact and lightweight machine design

- Folding handle for convenient transport and storage
- Supplied with **stainless steel cleaning wand**
- Includes **4.6m solution and vacuum hose assembly**

Product Benefits

- Delivers professional cleaning results from a compact machine
- Provides deep carpet and upholstery cleaning performance
- Improves soil removal through heated cleaning capability
- Reduces drying times with powerful vacuum recovery
- Easy to transport between cleaning locations
- Suitable for both residential and commercial applications
- Ready for immediate use with included hose and wand package

Technical Characteristics

- Commercial **portable extraction machine**
- **150 psi solution pump**
- Twin 2-stage vacuum motor system
- Clip-on water heating unit included
- Compact chassis with folding transport handle
- Supplied with **stainless steel extraction wand**
- Includes **4.6m hose assembly**

Applications

Prochem Galaxy is ideal for carpet cleaning contractors, facilities management teams, hotels, offices, care homes, educational facilities and residential cleaning professionals. Its compact dimensions and powerful extraction performance make it particularly suitable for carpet and upholstery cleaning in confined spaces, multi-site operations and environments where portability and professional cleaning results are equally important.
