Prochem Glidemaster 30cm/12" 2 Jet Carpet Cleaning Wand

Variant code: 16-AC1034

Prochem Glidemaster 30cm (12") 2 Jet Carpet Cleaning Wand is a professional-grade extraction wand designed to deliver efficient solution application and powerful soil recovery during carpet cleaning operations. Manufactured from high-quality stainless steel, this durable wand provides outstanding performance, reliability and operator comfort for professional carpet cleaning contractors and facilities maintenance teams.

Featuring a **30cm (12") cleaning head** and a **dual jet spray system**, the Glidemaster ensures even solution distribution across the carpet surface for consistent cleaning results. The precision-engineered extraction head maximises water recovery, helping to remove dirt, contaminants and excess moisture efficiently while reducing carpet drying times. Its ergonomic **S-bend design** promotes a more natural operating position, helping reduce operator fatigue during extended cleaning sessions.

Built for demanding commercial use, the Glidemaster combines robust stainless steel construction with excellent manoeuvrability and long-term durability. Suitable for use with a wide range of professional carpet extraction machines, it is an essential accessory for achieving professional cleaning results across commercial and residential carpeted environments.

Product Features

- **30cm (12") carpet cleaning wand**
- Dual **2-jet spray system** for even solution application
- Durable stainless steel construction
- Professional ergonomic **S-bend design**
- Efficient soil and moisture recovery performance
- Designed for use with professional extraction machines
- Commercial-grade build quality

Product Benefits

- Provides consistent carpet cleaning
