Prochem Glidemaster Hand Tool - Low Friction Upholstery Cleaning Extraction Tool

Variant code: 16-AC1021

Prochem Glidemaster Hand Tool is a **professional upholstery and detail extraction tool** designed to deliver exceptional cleaning performance while reducing operator fatigue. Engineered with Prochem's advanced glide technology, this specialist hand tool moves smoothly across fabric surfaces, improving cleaning efficiency and making upholstery cleaning faster, easier and more comfortable.

The low-friction glide design minimises drag during operation, allowing effortless movement across upholstery, mattresses, vehicle interiors and other fabric-covered surfaces. Combined with powerful extraction performance, the tool effectively removes dirt, stains, moisture and cleaning solution, helping to achieve outstanding cleaning results and faster drying times.

Manufactured for professional carpet and upholstery cleaning applications, the Glidemaster Hand Tool provides excellent visibility during operation, enabling precise cleaning of furniture, stairs, edges and confined areas. Its robust construction ensures durability and reliability for regular use in demanding commercial environments.

As a genuine Prochem accessory, the Glidemaster Hand Tool offers professional-grade performance, ergonomic handling and dependable results for upholstery and detail cleaning tasks.

Product Features

- **Professional upholstery extraction hand tool**
- Advanced low-friction glide design
- Smooth operation across fabric surfaces
- Efficient soil and moisture extraction
- Ideal for upholstery and detail cleaning
- Durable professional-grade construction
- Ergonomic and easy to handle
- Genuine Prochem accessory

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- **Reduces operator fatigue during cleaning**
- **Improves manoeuvrability and ease of use**
- **Provides excellent extraction performance**
- Helps achieve faster drying times
- Ideal for detailed and precision cleaning tasks
- Delivers professional upholstery cleaning results

Technical Characteristics

- Product Type: **Upholstery Extraction Hand Tool**
- Design: **Glide Technology**
- Application: Upholstery and Detail Cleaning
- Construction: Heavy-Duty Professional Design
- Compatibility: Suitable for compatible extraction machines
- Genuine Prochem accessory
