Prochem Heat 'N' Run - Inline Heater

Variant code: 16-AC3001

Prochem Heat 'N' Run is a **self-contained 2.8kW inline heater** designed exclusively for use with the **Prochem Steempro range of carpet soil extractors**. Engineered to provide a continuous supply of hot cleaning solution, this professional heating unit enhances cleaning performance by maintaining optimum solution temperatures throughout the extraction process.

Featuring a **high-capacity stainless steel heat tube**, the Heat 'N' Run delivers consistent heating performance and incorporates a **65°C operating thermostat** for controlled solution temperatures. A re-settable high-limit safety thermostat provides additional protection, ensuring safe and reliable operation in demanding commercial cleaning environments.

Designed as an isolated electrical unit, the Heat 'N' Run conforms to CE requirements and operates independently from the extractor, providing a dependable source of heated cleaning solution for improved soil removal and extraction results. The unit is fitted with a **25ft power cable**, illuminated rocker switch and heat indicator lamp for simple operation and clear status monitoring.

Compatible with Steempro heater mounting plates, the Heat 'N' Run is ideal for professional carpet cleaners seeking enhanced cleaning performance and faster, more effective extraction cleaning. For safe operation, the unit must only be used with Steempro machines fitted with a high-pressure relief valve.

Product Features

- **Self-contained 2.8kW inline heater**
- Designed exclusively for Prochem Steempro extractors
- High-capacity stainless steel heat tube
- **65°C operating thermostat**
- Re-settable high-limit safety thermostat
- Provides constant hot cleaning solution
- CE-compliant isolated electrical unit
- Illuminated rocker power switch
- Heat indicator lamp
- **25ft power cable**
- Compatible with Steempro heater

mounting plates

Product Benefits

- **Maintains consistent hot solution temperatures**
- **Enhances carpet cleaning and soil removal performance**
- **Improves extraction cleaning efficiency**
- Safety thermostats provide reliable operation
- Easy to install on compatible Steempro machines
- Durable stainless steel construction for long service life
- Ideal for demanding commercial carpet cleaning applications

Technical Characteristics

- Model: **Prochem Heat 'N' Run**
- Product Type: **Inline Solution Heater**
- Power Rating: **2.8kW**
- Thermostat Temperature: **65°C**
- Heat Tube Material: Stainless Steel
- Safety Protection: Re-settable High-Limit Thermostat
- Power Cable Length: **25ft**
- Controls: Illuminated Rocker Switch
- Indicator: Heat Status Lamp
- Compliance: CE Requirements for Isolated Electrical Units
- Compatibility: Prochem Steempro Machines with High Pressure Relief Valve

Applications

Prochem Heat 'N' Run is ideal for **professional carpet cleaning contractors, facilities management companies, hotels, offices, healthcare facilities, schools and commercial cleaning specialists** using compatible Prochem Steempro extraction machines. Designed to provide a continuous supply of heated cleaning solution, it enhances carpet extraction performance, improves soil removal and supports professional deep-cleaning results across a wide range of carpeted environments.

Property	Value
Warranty (Years)	1
Weight (kg)	4.7
