

Prochem Ink Solv – 500ml

Variant code: 09-E848-01

Prochem Ink Solv is a specialist **water-based micro-emulsion spotter** formulated for removing challenging water and solvent-soluble stains from **carpets, fabrics and hard surfaces**. Supplied ready to use, it provides a convenient treatment for targeted spot and stain removal during professional cleaning.

The formulation is suitable for tackling stains including **ink, marker pen, nail polish and PVA adhesive**, as well as other compatible water and solvent-soluble staining. Its specialist micro-emulsion formulation makes it a useful addition to professional carpet, fabric and surface-cleaning stain removal procedures.

Ink Solv is supplied as a **clear liquid with a mild aromatic odour** and has a published **pH of 7.5**. The convenient **500ml ready-to-use format** makes it suitable for targeted application where specialist stain treatment is required.
