

Prochem K-Valve with Trigger – Replacement Spray Control Valve for Extraction Wands

Variant code: 16-CM5001

Prochem K-Valve with Trigger is a **genuine replacement spray control valve** designed for use with compatible **Prochem carpet cleaning and extraction wands**. Engineered to provide precise control of cleaning solution flow, this replacement component helps maintain the performance, reliability and efficiency of professional carpet cleaning equipment.

Featuring an integrated trigger mechanism, the K-Valve allows operators to accurately control solution application during carpet and upholstery cleaning tasks. The ergonomic design ensures comfortable operation while enabling consistent spray delivery for effective cleaning and extraction performance.

Manufactured from durable professional-grade materials, the valve is designed to withstand the demands of regular commercial use. It serves as a direct replacement for worn, damaged or faulty valves, helping restore wand functionality and maintain optimum cleaning results.

As a genuine Prochem replacement part, the K-Valve with Trigger ensures correct fitment, dependable operation and long service life when installed on compatible carpet cleaning wands.

Product Features

- **Genuine Prochem replacement K-Valve**
- Integrated trigger control mechanism
- Designed for carpet cleaning extraction wands
- Controls cleaning solution flow
- Durable professional-grade construction
- Direct replacement component
- Easy installation on compatible wands
- Genuine Prochem spare part

Product Benefits

- **Restores proper spray and solution control**
- **Ensures consistent cleaning solution application**

- **Improves wand performance and reliability**
- Comfortable trigger operation
- Helps maintain professional cleaning results
- Cost-effective replacement for worn or damaged valves

Technical Characteristics

- Product Type: **Replacement K-Valve with Trigger**
- Application: Carpet Cleaning & Extraction Wands
- Function: Solution Flow Control
- Trigger Operated: Yes
- Construction: Durable Commercial-Grade Materials
- Compatibility: Suitable for Compatible Prochem Carpet Cleaning Wands
- Genuine Prochem spare part

Applications

Prochem K-Valve with Trigger is ideal for **professional carpet cleaners, contract cleaning companies, facilities management providers, hotels, healthcare facilities, schools and commercial cleaning contractors**. Suitable for maintaining and repairing compatible carpet cleaning extraction wands, it helps ensure accurate solution delivery, reliable operation and consistent cleaning performance during professional carpet and upholstery cleaning tasks.
