Prochem Natural Carpet Powder Detergent - 4kg

Variant code: 09-E779

Prochem Natural Carpet Powder Detergent is a woolsafe approved, biodegradable, phosphate free carpet cleaning detergent which is highly effective in removing dirt and grease from carpet fibres.

It is stable when used with high heat, to enable a deeper, more thorough extraction carpet clean. Ideal for use with portable or truck mounted carpet cleaning machines in both commercial and domestic environments.

Natural Carpet Powder Detergent is a white powder which dissolves quickly. It has a natural eucalyptus, tea tree oil and lemongrass and herbal fragrance to freshen carpet fibres as it cleans.

Always pre-test with the diluted solution in an inconspicuous area before proceeding with the full application.

Carpets should first be vacuumed thoroughly to remove any loose debris. Spots and stains should be pre-treated with a good carpet pre-spray such as Prochem Natural Carpet Spotter. Larger, heavy traffic areas should be pre-treated with Prochem Natural Carpet Pre Spray.

Prochem Natural Carpet detergent should then be diluted as directed and added to your carpet machine's solution tank.

Dilution 1 to 500

PH 9.5
