Prochem Plastic Detailer Hand Tool - Transparent Upholstery & Detail Cleaning Tool

Variant code: 16-PM2501

Prochem Plastic Detailer Hand Tool is a **professional upholstery extraction tool** designed for precision cleaning and detailing of fabric surfaces, furniture and hard-to-reach areas. Featuring a **clear plastic extraction head**, this specialist tool allows operators to monitor soil and moisture recovery during cleaning, ensuring effective results and greater control throughout the cleaning process.

The compact design makes it ideal for detailed upholstery work, enabling access to confined areas such as furniture seams, edges, vehicle interiors, stair treads and other intricate cleaning locations. Its transparent head provides excellent visibility of extracted soil and solution, helping operators assess cleaning performance in real time.

Manufactured from durable, lightweight materials, the Plastic Detailer Hand Tool is comfortable to use during extended cleaning sessions while providing reliable extraction performance. Its ergonomic design allows precise control, making it a popular choice for professional carpet cleaners, upholstery specialists and vehicle valeting professionals.

As a genuine Prochem accessory, the Plastic Detailer Hand Tool offers dependable performance and excellent manoeuvrability for upholstery and detail cleaning applications.

Product Features

- **Professional upholstery extraction hand tool**
- Clear transparent plastic extraction head
- Designed for detail and precision cleaning
- Lightweight and easy to handle
- Excellent visibility of solution recovery
- Suitable for upholstery and vehicle interiors
- Durable professional-grade construction
