

Prochem Auto Detailer Stainless Steel Hand Tool – For Upholstery & Vehicle Interiors

Variant code: 16-AC1039

Prochem Stainless Steel Auto Detailer Hand & Upholstery Tool is a **professional extraction cleaning tool** specifically designed for upholstery cleaning and vehicle interior detailing. Manufactured from durable stainless steel, this specialist hand tool provides exceptional cleaning performance in confined and hard-to-reach areas where standard upholstery tools may be too large or cumbersome.

Its compact profile allows operators to effectively clean tight spaces such as vehicle seats, footwells, door panels, armrests, stair edges, furniture seams and other restricted-access areas. The precision design ensures effective solution recovery and soil extraction, helping to achieve professional cleaning results while reducing drying times.

Constructed from high-quality stainless steel, the Auto Detailer is built to withstand the demands of daily commercial use. Its durable design offers excellent resistance to corrosion, wear and cleaning chemicals, making it ideal for professional carpet cleaners, upholstery specialists and vehicle valeting operations.

As a genuine Prochem accessory, the Stainless Steel Auto Detailer provides reliable performance, durability and excellent manoeuvrability for detailed upholstery and interior cleaning applications.

Product Features

- **Professional hand and upholstery extraction tool**
- Durable stainless steel construction
- Compact design for confined spaces
- Designed for upholstery and vehicle interior cleaning
- Effective soil and moisture extraction
- Corrosion-resistant construction
- Lightweight and easy to manoeuvre
- Genuine Prochem accessory

Product Benefits

- **Cleans effectively in tight and hard-to-reach spaces**
- **Provides excellent extraction and recovery performance**
- **Ideal for detailed upholstery and vehicle interior cleaning**
- Durable stainless steel design ensures long service life
- Helps improve cleaning results and drying times
- Comfortable and easy to control during operation

Technical Characteristics

- Product Type: **Hand & Upholstery Extraction Tool**
- Construction: **Stainless Steel**
- Application: Upholstery and Vehicle Detailing
- Design: Compact Detail Cleaning Tool
- Corrosion Resistant: Yes
- Compatibility: Suitable for compatible extraction machines
- Genuine Prochem accessory

Applications
