Prochem Steempro Powermax - Carpet Cleaning Machine Complete with 7.6m Hose and 2 Jet Wand

Variant code: 16-SX2100

Prochem Steempro Powermax is a high-performance **professional carpet extraction machine** designed to deliver exceptional cleaning power for commercial and residential carpet cleaning applications. Combining dual vacuum motor technology, a high-pressure solution pump and a compact portable design, the Powermax provides outstanding extraction performance while maintaining excellent manoeuvrability for single-operator use.

Engineered for demanding professional cleaning environments, the Steempro Powermax features **dual 3-stage vacuum motors** paired with a durable **150 psi induction diaphragm pump**, providing powerful soil extraction and rapid moisture recovery. The machine incorporates a generous **35-litre solution tank** within a compact chassis, maximising productivity while remaining easy to transport and operate. Upright-mounted vacuum motors and Prochem's exclusive intercooler system help maintain performance during extended cleaning sessions, whilst the integrated **"whisper quiet" silencer** reduces operating noise, making the machine suitable for use in occupied buildings and noise-sensitive environments.

Supplied complete with a **7.6 metre hose assembly** and a **2-jet Glidemaster stainless steel wand**, the Steempro Powermax is ready for professional use straight out of the box. For operators requiring heated extraction performance, the optional **Heat 'n' Run inline heat exchanger** provides a continuous supply of hot cleaning solution. Combining power, efficiency and portability, the Steempro Powermax represents a state-of-the-art solution for professional carpet cleaning contractors and facilities maintenance teams.

Product Features

- **Professional carpet extraction machine**
- Dual **3-stage vacuum motors** for powerful recovery

Email: info@aukhygiene.com

- **150 psi induction diaphragm pump**
- Large **35-litre solution tank**
- Integrated **whisper quiet silencer**
- Exclusive intercooler system for enhanced motor performance
- Supplied with **7.6m hose assembly**
- Includes **2-jet Glidemaster stainless steel wand**
- Optional Heat 'n' Run inline heat exchanger available

Product Benefits

- Delivers powerful deep-cleaning and soil extraction performance
- Provides excellent moisture recovery for faster carpet drying times
- Supports high productivity through a large solution tank capacity
- Reduces noise levels for operation in occupied premises
- Combines powerful performance with excellent portability
- Ready for immediate use with included professional accessories
- Suitable for both residential and commercial carpet cleaning projects

Technical Characteristics

- Commercial **portable carpet cleaning machine**
- **150 psi induction diaphragm pump**
- Dual 3-stage vacuum motor system
- **35L solution tank capacity**
- Integrated low-noise silencer technology
- Upright motor configuration with intercooler unit
- Includes **7.6m hose set and 2-jet stainless steel wand**
- Compatible with optional Heat 'n' Run heating system

Applications

Prochem Steempro Powermax is ideal for professional carpet cleaning contractors, facilities management companies, hotels, offices, educational establishments, healthcare facilities and commercial buildings. Its powerful extraction capability, large tank capacity and portable design make it particularly suitable for maintaining large carpeted areas while delivering professional cleaning results and reduced drying times.
