Prochem Steempro Powerplus - Carpet Cleaning Machine Complete with 7.6m Hose and 2 Jet Wand

Variant code: 16-SX2700

Prochem Steempro Powerplus is a high-capacity **professional carpet extraction machine** designed for demanding commercial carpet cleaning applications where productivity, performance and efficiency are essential. As the larger and more powerful successor to the popular Steempro Powermax, the Powerplus combines increased tank capacity with a powerful **220 psi solution pump**, enabling operators to tackle large carpeted areas quickly and professionally.

Built for intensive cleaning operations, the Steempro Powerplus delivers powerful soil extraction and rapid recovery performance, making it ideal for commercial cleaning contractors, facilities management teams and professional carpet care specialists. The high-performance **220 psi pump** provides excellent solution delivery for deep cleaning results, while the larger capacity design reduces interruptions caused by frequent refilling and emptying. This allows operators to clean more efficiently and maintain productivity when working across extensive carpeted areas.

Supplied complete with a **7.6 metre hose assembly** and a professional **2-jet Glidemaster stainless steel wand**, the Powerplus is ready for immediate use. For enhanced cleaning performance, the optional **Heat 'n' Run inline heat exchanger** provides a continuous supply of hot cleaning solution, helping to improve soil removal and overall cleaning results. Combining powerful extraction, increased capacity and professional-grade reliability, the Steempro Powerplus is engineered for high-volume carpet cleaning environments.

Product Features

- **Professional carpet extraction machine**
- Powerful **220 psi solution pump**
- Large-capacity design for extended cleaning periods
- Reduces downtime caused by refilling and emptying

- Supplied complete with **7.6m hose assembly**
- Includes **2-jet Glidemaster stainless steel wand**
- Optional Heat 'n' Run inline heat exchanger available
- Designed for demanding commercial carpet cleaning applications

Product Benefits

- Delivers powerful deep-cleaning performance on heavily soiled carpets
- Improves productivity when cleaning large carpeted areas
- Reduces interruptions through increased solution and recovery capacity
- Provides professional cleaning results with efficient soil extraction
- Ready for immediate use with included hose and wand package
- Supports enhanced cleaning performance with optional continuous heat
- Built for reliability in demanding commercial environments

Technical Characteristics

- Commercial **portable carpet extraction machine**
- **220 psi high-performance solution pump**
- Large-capacity tank configuration for extended operation
- Suitable for large commercial carpet cleaning projects
- Compatible with optional Heat 'n' Run heating system
- Includes **7.6m hose set and 2-jet stainless steel wand**
- Designed for professional carpet cleaning contractors and facilities teams

Applications

Prochem Steempro Powerplus is ideal for hotels, conference centres, offices, educational facilities, healthcare environments, leisure venues and commercial buildings with extensive carpeted areas. Its larger capacity and powerful 220 psi pump make it particularly suitable for professional carpet cleaning contractors who require maximum productivity, reduced downtime and consistently high cleaning performance.
