PVA Hygiene Multipurpose Cleaner Screen Printed Empty Trigger Spray Bottle - Surface Cleaner Bottle - 750ml

Variant code: 14-CE530

PVA Hygiene Multipurpose Cleaner Screen Printed Empty Trigger Spray Bottle is a **dedicated surface cleaner dispensing bottle** designed for use across a wide range of professional cleaning environments. Manufactured by PVA Hygiene, a supplier known for structured cleaning systems and compliant chemical solutions, this bottle supports safe handling, accurate application and clear product identification within commercial cleaning operations.

The bottle is **screen printed for multipurpose cleaner use**, ensuring quick identification and reducing the risk of incorrect chemical application. It is suitable for use with a variety of cleaning solutions, allowing operatives to apply products efficiently across multiple surface types. The trigger spray mechanism delivers controlled and even distribution, making it ideal for general cleaning tasks where flexibility and coverage are required.

Designed for repeated use, the bottle integrates easily into existing cleaning workflows and supports COSHH-compliant labelling systems. Its multipurpose designation makes it particularly useful in environments where a single cleaning solution is used across different surfaces, helping maintain operational efficiency while reducing the need for multiple containers.

Product Features

- **Screen printed multipurpose cleaner bottle** for clear identification
- Designed for professional cleaning and hygiene systems
- Trigger spray head for controlled and even application
- Suitable for use with a wide range of cleaning solutions
- Durable construction for repeated commercial use
- Supports organised and structured cleaning systems

- Manufactured by **PVA Hygiene**

Product Benefits

- Reduces risk of incorrect chemical usage
- Supports COSHH-compliant storage and handling practices
- Enables flexible cleaning across multiple surface types
- Improves efficiency in general cleaning tasks
- Helps maintain organised cleaning workflows
- Suitable for high-frequency commercial cleaning environments

Technical Characteristics

- Supplied empty for use with compatible cleaning chemicals
- Designed for trigger spray application
- Suitable for dilution or ready-to-use solutions
- Clean and rinse regularly to maintain performance
- Store in designated chemical storage areas
- Follow site-specific safety and cleaning procedures

Applications

PVA Hygiene Multipurpose Cleaner Screen Printed Empty Trigger Spray Bottle is suitable for use in commercial cleaning, facilities management, healthcare, education and hospitality environments. It is particularly effective for general surface cleaning tasks across offices, public areas, washrooms and light-duty kitchen spaces. The trigger spray format allows controlled application on surfaces such as desks, fixtures, fittings and hard surfaces, supporting efficient and consistent cleaning in high-use environments.
