PVA Hygiene Multipurpose Cleaner Soluble Sachets - Surface Cleaner Concentrate - Pack of 20

Variant code: 07-B220S

PVA Hygiene Multipurpose Cleaner Soluble Sachets are a **concentrated surface cleaning solution** designed for use with trigger spray bottles in professional cleaning environments. Manufactured by PVA Hygiene, a brand focused on structured chemical systems and compliant hygiene solutions, these sachets support controlled dilution, accurate dosing and reduced chemical waste across commercial cleaning operations.

Each soluble sachet is pre-measured to dissolve in water, creating a ready-to-use cleaning solution suitable for general surface cleaning tasks. This system eliminates the need for manual measuring, helping reduce the risk of over- or under-dosing while improving consistency across cleaning teams. Designed to be used with compatible trigger spray bottles, the sachets integrate seamlessly into existing workflows and support safe chemical handling procedures.

The compact format also supports improved storage efficiency and reduces packaging waste compared to traditional liquid cleaning products. As part of a structured cleaning system, these sachets help maintain organisation, improve operational efficiency and support COSHH-compliant processes within professional environments.

Product Features

- **Pre-measured soluble sachets** for multipurpose cleaning
- Designed for use with trigger spray bottles
- Produces ready-to-use cleaning solution when diluted
- Eliminates need for manual chemical measuring
- Compact and easy-to-store format
- Supports structured cleaning systems
- Manufactured by **PVA Hygiene**

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- Ensures consistent dilution and cleaning performance
- Reduces risk of incorrect chemical dosing
- Supports COSHH-compliant handling and safety procedures
- Minimises chemical waste and improves cost control
- Simplifies cleaning processes for operatives
- Reduces storage space compared to bulk liquids

Technical Characteristics

- Designed to dissolve in water to create cleaning solution
- Use with compatible trigger spray bottles
- Follow manufacturer dilution instructions
- Store in a dry environment prior to use
- Avoid contact with moisture before application
- Dispose of packaging in accordance with local regulations

Applications

PVA Hygiene Multipurpose Cleaner Soluble Sachets are suitable for use across commercial cleaning, facilities management, healthcare, education and hospitality environments. They are particularly effective in settings where consistent cleaning standards and controlled chemical usage are required. Typical applications include general surface cleaning of desks, fixtures, fittings and hard surfaces in offices, public areas and shared spaces. The sachet system supports efficient cleaning workflows while maintaining hygiene and safety standards in high-use environments.
