PW3 Tradesman Glove - M - Black/Yellow

Variant code: 22-A771BKYM

PW3 Tradesman Glove – Black/Yellow: High-Performance Versatility & Visibility

Elevate your workday with the **PW3 Tradesman Glove (A771)**, a premium multi-purpose solution designed for professionals who demand both protection and agility. Merging a lightweight, ergonomic design with high-visibility accents, these gloves are the ultimate choice for construction, automotive, and general maintenance tasks.

Featuring **PW3 reflective tape**, these gloves ensure you remain seen in low-light environments, while the **reinforced padded palms** offer the heavy-duty abrasion resistance needed for rigorous manual labour without sacrificing comfort.

Key Features & Benefits

- **Touchscreen Compatible:** Seamlessly transition from the toolkit to the tablet. These gloves are designed to work with **most mobile touchscreen devices**, keeping you connected on-site.
- **Enhanced Visibility:** Integrated with **high-visibility yellow material** and signature PW3 reflective tape for maximum safety in dim conditions.
- **Advanced Impact Protection:** Equipped with **additional knuckle padding**, providing a vital shield against bumps and scrapes.
- **Superior Comfort:** Built with a lightweight blend of **Nylon and Elastane**, offering exceptional dexterity (Level 4) and a "bare-hand" feel that reduces fatigue.
- **Reliable Durability:** The reinforced padded palms provide **Level 2 abrasion resistance**, significantly extending the life of the glove in high-wear areas.

Technical Specifications

Feature	Detail
Material	Nylon, Elastane, Polyurethane
Safety Standard	EN 388:2016 +A1:2018 (2X22B)
Cut Level	ISO Cut Level B
Dexterity	Level 4 (EN ISO 21420)
Visibility	PW3 Reflective Tape

Pro-Tips for Maximum Performance

- **Precision Handling:** Use these gloves for tasks requiring high dexterity, such as handling small fasteners or electrical components, thanks to the high-stretch elastane fabric.
- **Optimal Sizing:** To ensure the touchscreen functionality works perfectly, choose a snug fit. A loose fingertip can make it harder for the screen to register your touch.
- **Maintenance:** To preserve the reflective tape and palm padding, hand wash with a damp cloth and mild soap. Avoid tumble drying, as high heat can damage the synthetic materials.

Frequently Asked Questions (FAQs)

Q: Are these gloves suitable for heavy construction?

A: They are excellent for general trades, assembly, and light construction. For tasks involving heavy-duty sharp metal or high-impact demolition, you may want to pair them with a higher-rated cut or impact glove from the PW3 range.

Q: Can I use these on both iPhone and Android screens?

A: Yes! The conductive material is designed to be compatible with the capacitive touchscreens found on almost all modern smartphones and tablets.

Q: What does the "Level B" cut rating mean?

A: An ISO Cut Level B rating indicates that the glove provides protection against light to medium cut risks, making them ideal for warehousing,
