Toilet Roll Dispenser - Raphael VersaTwin - Smoke

Variant code: 28-VTSMORA

Raphael VersaTwin Toilet Roll Dispenser is a **compact, high-capacity twin roll toilet tissue dispenser** designed to provide reliable paper availability while reducing waste in commercial washrooms. Featuring the innovative **Infinity Paper System**, the dispenser allows access to only one toilet roll at a time, helping ensure each roll is fully used before the next becomes available. This reduces unnecessary stub roll waste and supports more economical toilet tissue consumption.

Despite its **space-saving design**, the dispenser accommodates up to **400 metres of compatible toilet tissue**, making it suitable for both compact washrooms and busy commercial facilities. The enclosed housing keeps unused toilet rolls protected from the washroom environment while helping prevent unauthorised removal. Its **lockable construction** uses the same key system as other Raphael dispensers, simplifying servicing across facilities equipped with the Raphael washroom range.

Designed for **easy maintenance and improved hygiene**, the dispenser incorporates **BioKleen™ treatment on contact areas** to help inhibit bacterial growth. A translucent cover on Blue and Smoke models, or translucent back on White models, allows cleaning staff to check paper levels at a glance without opening the dispenser. Available in **Blue, Smoke and White**, the VersaTwin combines efficient paper management, convenient replenishment and compact dimensions for professional washroom environments.

Product Features

- **Compact twin roll toilet tissue dispenser** for commercial washrooms
- **Infinity Paper System** allows access to only one toilet roll at a time
- Helps minimise **stub roll waste** by allowing the first roll to be used before the second becomes available
- **High-capacity design** accommodates up to 400 metres of compatible toilet tissue

- Enclosed housing keeps unused toilet rolls clean and protected before use
- **Lockable dispenser** helps prevent unauthorised access and toilet roll theft
- Uses the **Raphael dispenser key system** for convenient servicing
- **Translucent cover** on Blue and Smoke models allows easy paper level monitoring
- **Translucent back** on White models enables convenient replenishment checks
- **BioKleen™ treated contact areas** help inhibit bacterial growth
- Simple operation suitable for users of all ages and abilities
- Quick and straightforward toilet roll replenishment
- **Space-saving construction** suitable for smaller washrooms
- Designed for compatible Raphael VersaTwin toilet rolls
- Available in **Blue, Smoke and White**

Product Benefits

- **Reduces toilet tissue waste** by encouraging complete use of each roll before the next becomes available
- **Infinity Paper System** helps minimise unnecessary stub roll disposal and associated consumable costs
- High paper capacity reduces the frequency of replenishment and helps maintain toilet tissue availability
- **Compact design** makes efficient use of limited wall space without compromising paper storage capacity
- Translucent viewing areas allow cleaning staff to check paper levels without opening the dispenser
- **BioKleen™ treatment** supports improved washroom hygiene by helping inhibit bacterial growth on treated surfaces
- Enclosed toilet roll storage helps protect unused tissue from external contact and contamination
- Lockable housing helps discourage paper theft and unauthorised access
- Shared Raphael key compatibility simplifies dispenser management across multiple washrooms
- Simple replenishment helps reduce routine washroom maintenance time
- Dual-roll configuration provides a reserve
