Rational Active Green Cleaner Tablets - 150 Tablets

Variant code: 04-5601535

Rational Active Green Cleaner Tablets are **highly concentrated combi oven cleaning tablets** developed to deliver powerful cleaning and hygiene performance in compatible Rational cooking systems. Featuring an advanced **phosphate-free and phosphorus-free formulation**, these genuine Rational cleaning tablets help remove stubborn grease, food residues and cooking deposits while reducing the quantity of cleaning chemicals required.

The innovative Active Green formula can **reduce cleaning chemical consumption by up to 50%** compared with the previous Rational cleaning formulation, without compromising cleaning power or hygiene. Designed for use with the oven's **integrated automatic cleaning system**, the tablets provide effective cleaning of the cooking cabinet while helping reduce chemical consumption during routine maintenance. Compatible iCombi Pro ovens can also perform an **ultra-fast interim clean in approximately 12 minutes**, helping kitchens maintain cleanliness between cooking operations.

Suitable for **Rational iCombi Pro and iCombi Classic ovens**, these concentrated cleaner tablets provide a convenient, manufacturer-developed solution for professional catering equipment maintenance. Their pre-measured format simplifies cleaning procedures and supports consistent dosing according to the selected cleaning programme. Supplied in a **container of 150 tablets with a total weight of approximately 5.25kg**, they offer a practical cleaning solution for restaurants, hotels, commercial kitchens and busy catering facilities.
