Rational Rinse Aid Tablets - Bucket of 50

Variant code: 04-5600211

Rational Rinse Aid Tablets are **professional combi oven rinse aid tablets** designed to support effective automatic cleaning and rinsing in compatible Rational cooking equipment. Developed specifically for **SelfCookingCenter units without Efficient CareControl and compatible CombiMaster Plus models**, these specialist tablets help maintain a clean, hygienic cooking cabinet while providing active care for the appliance.

The concentrated rinse aid formulation works during the equipment's **automatic cleaning and rinsing process**, helping remove residual cleaning chemicals and supporting a clean, gleaming finish inside the cooking cabinet. The tablets contain **high-efficiency care substances** designed to help protect internal surfaces and support the long-term condition of compatible Rational combi ovens. Their specialist formulation helps maintain equipment cleanliness as part of a regular cleaning and maintenance programme.

Supplied in a convenient **bucket of 50 tablets**, these genuine Rational care products provide a practical alternative to liquid rinse aid for compatible equipment. The pre-measured tablet format simplifies handling and eliminates the need to measure liquid rinse aid manually. Ideal for **commercial kitchens, restaurants, hotels and catering facilities**, they help maintain professional cooking equipment when used in accordance with the manufacturer's recommended cleaning procedures.
