Nitrile Powder Free Disposable Gloves - Box of 100 - Red - Large

Variant code: 22-991L

Nitrile examination glove, food safe, chemical resistant, powder free, chlorinated AQL 1.5 in red.

Product features:

- Latex free nitrile with a chlorinated finish for easy wear and comfort; powder free to stop hands from drying out and designed for use in dentistry, healthcare etc.
- The beaded cuff on this multipurpose glove provides extra strength and helps prevent liquid roll back whilst the medium weight construction is suitable for contact with food and is chemical resistant.
- Textured palms and fingertips provide improved grip, particularly in wet or oily conditions and touchscreen compatibility allows you to use mobile and tablet displays without removing the gloves.
