Refuse Sacks - Extra Heavy Duty - 90L/20kg - Box of 200 - Black

Variant code: 18-LD18

Refuse Sacks are robust **extra heavy duty 90 litre waste sacks** designed to provide exceptional strength and reliable waste containment for demanding commercial, industrial and facilities management environments. Manufactured for high-performance waste handling, these durable black refuse sacks are engineered to cope with heavier waste loads while supporting efficient and hygienic waste disposal procedures.

Featuring a generous **90 litre capacity** and a strong **20kg load rating**, these extra heavy-duty sacks are designed to resist tearing, punctures and leaks during use. Their high-strength construction makes them suitable for handling substantial general waste, industrial refuse, warehouse waste and demanding cleaning operations. The discreet **black finish** provides a professional appearance while effectively concealing waste contents in commercial and public environments.

Manufactured using **97% recycled content**, these refuse sacks are designed to help reduce plastic usage and lower carbon emissions during production and transportation. They are fully recyclable, reusable and compliant with **Plastics Packaging Tax** regulations, supporting environmentally responsible waste management practices. Supplied in a practical **box of 200 sacks**, they provide a dependable and cost-effective bulk waste disposal solution.

Product Features

- **Extra heavy duty refuse sacks**
- **90 litre capacity**
- **20kg load rating**
- Strong tear and puncture-resistant construction
- Manufactured using **97% recycled material**
- Fully recyclable and reusable
- Plastics Packaging Tax compliant
- Professional **black finish**
- Supplied in a **box of 200 sacks**

Product Benefits

- Provides reliable waste containment for demanding applications
- Supports hygienic and efficient waste disposal procedures
- Reduces risk of tears, leaks and sack failures
- Suitable for heavier commercial and industrial waste loads
- Supports environmentally responsible waste management
- Helps reduce plastic consumption and carbon emissions
- Offers economical bulk supply for high-use environments

Technical Characteristics

- **90L extra heavy duty refuse sacks**
- **20kg maximum load capacity**
- Black recycled polythene construction
- 97% recycled content
- Fully recyclable and reusable design
- Plastics Packaging Tax compliant
- Suitable for commercial and industrial waste applications
- **Box quantity: 200 sacks**

Applications

Refuse Sacks are ideal for warehouses, factories, offices, hospitality venues, schools, janitorial services and industrial workplaces where durable and high-capacity waste disposal solutions are required. Their extra heavy-duty construction and sustainable recycled content make them particularly suitable for demanding environments seeking reliable and environmentally responsible waste management consumables.
