Resource Rag - Box of 100

Variant code: 02-100

Resource Rag provide a high-performance alternative to traditional white wiping rags for demanding cleaning and maintenance tasks. Supplied in a convenient **box of 100**, these oversized disposable wipers are designed to deliver exceptional strength, absorbency and durability in both wet and dry applications. Manufactured without added chemicals, they offer a clean, fresh wiping solution suitable for a wide range of professional environments.

Developed to outperform conventional wiping rags, each Resource Rag is manufactured in a generous size to provide users with a substantial wiping surface for tackling larger cleaning jobs. The strong material absorbs up to **six times its own weight**, making it highly effective for cleaning oils, grease, water, solvents and general spills. Its durable construction maintains strength when wet, providing reliable performance while helping reduce the number of wipes required for each task.

Ideal for industrial, automotive and commercial cleaning applications, the Resource Rag combines excellent absorbency with cost-effective performance. The boxed dispensing format keeps wipers clean and easily accessible, making them a practical solution for busy workshops, factories and maintenance departments.

Product Features

- Heavy-duty boxed wiping cloths
