Rubbermaid AutoFoam - Antibacterial Foam Hand Soap - 1100ml

Variant code: 10-RVU11528

Rubbermaid AutoFoam Antibacterial Soap is a **professional antibacterial foam hand soap** developed to support effective hand hygiene in food preparation, food handling and healthcare environments. Designed for use with Rubbermaid AutoFoam dispensing systems, this high-performance formulation combines effective antimicrobial action with economical foam dispensing, making it ideal for busy commercial and public facilities.

The antibacterial foam helps **control the growth of microorganisms on the skin**, supporting workplace hygiene programmes and infection prevention procedures. The rich foam spreads quickly and evenly across the hands, providing effective cleansing while delivering a pleasant and comfortable hand washing experience. Its gentle formulation is suitable for frequent daily use in environments where maintaining high standards of hygiene is essential.

Engineered for efficiency, each **1100ml refill delivers up to 2,750 hand washes**, providing significantly greater capacity than many traditional bag-in-box refill systems. The controlled foam dispensing technology helps minimise product waste, reduce refill frequency and lower maintenance requirements, making it a cost-effective solution for high-traffic washrooms and hygiene-critical areas.

Designed specifically for compatibility with Rubbermaid AutoFoam dispensers, the sealed refill system promotes hygienic operation while ensuring quick and simple replacement. The high-capacity refill format supports continuous service and reliable hand hygiene management across a wide range of professional settings.

Product Features

- **Antibacterial foam hand soap**
- Helps **control the growth of microorganisms on the skin**
- Designed for food handling and healthcare environments
- Rich foam for effective hand cleansing

Tel: 01626 355177
