Rubbermaid TC Flex Enriched Foam Alcohol Plus Hand Rub - 1000ml

Variant code: 10-2146692

Rubbermaid TC Flex Enriched Foam Alcohol Plus Hand Rub is a professional foam hand sanitiser designed to provide **rapid and effective hand hygiene protection** in high-traffic and hygiene-critical environments. Developed for use with the Rubbermaid Flex dispensing system, it combines powerful alcohol sanitising performance with skin-conditioning ingredients for comfortable frequent use.

This enriched foam sanitiser formulation contains moisturising ingredients including **shea butter, vitamin E and panthenol**, helping maintain skin comfort during repeated application. The fast-drying foam spreads easily across the hands, delivering effective sanitising performance without leaving heavy residue.

Designed for economical operation, each **1000ml refill provides up to 3,250 uses**, making it ideal for busy professional environments requiring dependable and cost-effective hand hygiene solutions. The hygienically sealed refill system helps eliminate contamination risks while supporting safe and controlled dispensing.

Compatible with the **Rubbermaid Flex system**, the sanitiser complies with **EN1500 (E3)** standards for hygienic hand rub performance. Suitable for healthcare, commercial washrooms, workplaces and public facilities where effective hand sanitising is essential.
