Rug Doctor Mighty Pro X3 Professional Carpet Cleaner with Upholstery Kit

Variant code: 16-RDMP

Rug Doctor Mighty Pro X3 is a **professional-grade carpet cleaner and extractor** designed to deliver deep cleaning performance for carpets, rugs and upholstery. Featuring Rug Doctor's advanced **three-stage cleaning system**, the Mighty Pro X3 removes embedded dirt, grease and stains efficiently, providing professional results without the cost of hiring specialist cleaning services.

The machine's innovative **one-pass cleaning system** simplifies carpet cleaning by combining solution injection, agitation and extraction into a single operation. A powerful spray system injects hot cleaning solution deep into carpet fibres, while the advanced brush technology agitates and lifts dirt from individual fibres. The high-performance suction motor then extracts grime, moisture and cleaning solution into the large-capacity recovery tank, leaving carpets cleaner and fresher.

Supplied with an **upholstery kit**, the Mighty Pro X3 extends its cleaning capabilities beyond carpets to include fabric furniture, stairs, vehicle interiors and other upholstered surfaces. The foldable design allows the machine to be stored neatly when not in use, making it practical for both commercial and domestic environments where storage space may be limited.

Built for performance and ease of use, the Rug Doctor Mighty Pro X3 provides a powerful cleaning solution for offices, hotels, care homes, schools, rental properties and households requiring professional-quality carpet and upholstery maintenance.

Product Features

- **Professional carpet cleaner with upholstery kit**
- Advanced **three-stage cleaning system**
- One-pass cleaning technology
- Powerful solution injection and extraction system
- Innovative brush technology for deep fibre cleaning
- Foldable design for convenient storage
