Screen Wash - 5L

Variant code: 06-880

Screen Wash is a concentrated **windscreen cleaning and de-icing fluid** designed to maintain clear visibility in all weather conditions. Its effective formulation removes road dirt, grime and smears from vehicle windscreens while helping prevent windscreen washer systems from freezing during winter.

Formulated with a blend of **alcohol and surfactants**, this versatile screen wash provides **smear-free cleaning** and can be used undiluted to remove ice from frozen windscreens. It is particularly suitable for vehicles operating in cold conditions, helping maintain effective washer performance and clear glass.

Suitable for **cars, taxis, buses, vans and commercial vehicles**, the concentrated formula offers flexible dilution ratios for summer, winter and severe winter conditions. Supplied in a convenient **5L container**, it is ideal for individual vehicle maintenance and professional fleet operations.

Product Features

- **Concentrated screen wash** for year-round vehicle windscreen cleaning.
- **Effective de-icing action** helps remove ice from frozen windscreens.
- **Smear-free cleaning** removes dirt and grime without leaving streaks.
- **Winter freeze protection** helps prevent windscreen washer systems from freezing.
- **Alcohol-based formulation** provides effective cleaning and de-icing performance.
- **Flexible dilution ratios** for summer, winter and severe winter conditions.
- **Suitable for commercial fleets** including taxis, buses and haulage vehicles.
- **5L container** provides a practical supply for vehicle maintenance.

Product Benefits

- **Improved driving visibility** helps maintain clear windscreens in changing weather conditions.

- **Effective winter protection** reduces the risk of washer fluid freezing in cold weather.
- **Quick de-icing** helps remove windscreen ice before driving.
- **Clean, streak-free glass** supports clear visibility without distracting smears.
- **Economical concentrate** allows dilution according to seasonal requirements.
- **Versatile vehicle compatibility** suits private vehicles and commercial fleets.
- **Convenient maintenance solution** combines cleaning and de-icing functions in one product.

Technical Characteristics

- **Product Type:** Windscreen Washer Fluid and De-Icer
- **Capacity:** 5L
- **Form:** Liquid Concentrate
- **Composition:** Alcohol-Based Cleaning Mixture with Surfactants
- **Appearance:** Liquid
- **Colour:** Blue
- **Odour:** Characteristic
- **pH:** 10
- **Relative Density:** 0.97
- **Water Solubility:** Soluble
- **Flash Point:** Approximately 37°C
- **Summer Dilution:** 1 Part Product to 40 Parts Cold Water
- **Winter Dilution:** 1 Part Product to 10 Parts Cold Water
- **Severe Winter Dilution:** 1 Part Product to 1 Part Cold Water
- **De-Icing Application:** Use Undiluted
- **Application:** Vehicle Windscreens and Washer Systems

Applications

Area of Use: Ideal for **cars, vans, taxis, minibuses, buses, haulage vehicles, commercial fleets and public authority vehicles**. Suitable for routine windscreen cleaning and seasonal protection of vehicle washer systems.

How to Use: For **summer cleaning**, dilute 1 part product with 40 parts cold water and pour into the windscreen washer reservoir. For **winter use**, dilute 1:10 with cold water. In **severe winter conditions**, use a 1:1 dilution. For **de-icing windscreens**, apply the product undiluted directly onto the affected area, leave for approximately 5 minutes until the ice has liquefied, then remove

Tel: 01626 355177
Email: info@aukhygiene.com

the loosened ice.

Application Considerations: Select the dilution according to expected weather conditions. Ensure the washer reservoir contains the appropriate mixture before freezing temperatures occur. The manufacturer does not specify exact minimum operating temperatures for the recommended dilutions, so freeze protection should not be assumed to extend to a particular temperature.

Safety: Flammable liquid and vapour. Causes serious eye irritation. Keep away from heat, sparks, open flames and other ignition sources. Avoid eye contact and wear suitable eye protection when there is a risk of splashing. Store in a cool, well-ventilated place with the container tightly closed. Keep out of reach of children and follow the current Safety Data Sheet.

Property	Value
Appearance	Liquid
Fragrance	Characteristic
pH	10
Usage Instructions	For de-icing: Use undiluted. Pour or spray onto area as required. Leave for about 5 minutes until the ice has liquefied then brush clear.
Dilution	Summer: Dilute 1-part product to 40-parts cold water & pour into washer tank. Winter: Dilute 1-part product to 10-parts cold water & pour into washer tank. Severe Winter Conditions: Dilute 1-part product to 1-part cold water & pour into washer tank.
Chemical Colour	Blue
