Sebo BP60 Battery Upright Vacuum Cleaner

Variant code: 16-BP60

Sebo BP60 Battery Upright Vacuum Cleaner is a **high-performance cordless commercial vacuum** designed to deliver exceptional cleaning power, manoeuvrability and durability in demanding professional environments. Powered by a state-of-the-art **308Wh lithium-ion battery**, the BP60 provides up to **60 minutes of powerful cordless cleaning**, allowing operators to clean efficiently without the restrictions and hazards associated with mains cables.

Built with Sebo's innovative **Softcase design**, the upper housing is manufactured from a durable textile material with a practical two-way zip. This lightweight, shock-resistant construction helps protect walls, furniture and fixtures from accidental damage while providing excellent durability for everyday commercial use. The low-profile design allows the vacuum to operate fully flat, making it easy to clean beneath furniture and difficult-to-reach areas.

The BP60 utilises Sebo's advanced **Efficient Impeller Technology**, featuring a high-speed 17,000rpm impeller driven by a toothed belt system for powerful suction and effective brush action. A removable brush roller, adjustable brush height settings and easy-access maintenance points ensure the machine remains simple to operate and maintain, while built-in overload and blockage protection enhances reliability and machine longevity.

Product Features

- Powerful cordless upright vacuum cleaner
- 308Wh lithium-ion battery system
- Up to 60 minutes runtime per charge
- Softcase shock-resistant textile housing
- Operates fully flat for under-furniture cleaning
- 17,000rpm Efficient Impeller Technology
- Separate toothed belt brush drive system
- Removable brush roller without tools
- 4-stage adjustable brush height control
- Large 5.5L dust bag capacity
- Easy-access air channel for blockage

removal
- Automatic overload and blockage protection system

Product Benefits

- **Provides up to 60 minutes of unrestricted cordless cleaning**
- **Reduces trip hazards and improves operator productivity**
- **Protects walls and furniture with soft textile housing**
- Delivers powerful suction and brush performance
- Easy brush roller removal simplifies maintenance
- Adjustable height settings optimise cleaning on different carpets
- Large dust bag reduces downtime for bag changes
- Automatic protection systems help extend machine life

Technical Characteristics

- Product Type: Cordless Upright Vacuum Cleaner
- Model: Sebo BP60
- Battery Type: Lithium-Ion
- Battery Capacity: 308Wh
- Runtime: Up to 60 Minutes
- Dust Bag Capacity: 5.5 Litres
- Brush Height Adjustment: 4 Position
- Brush Roller: Tool-Free Removable Design
- Impeller Speed: 17,000rpm
- Housing Type: Softcase Textile Construction
- Commercial-Grade Performance

Applications

The Sebo BP60 Battery Upright Vacuum Cleaner is ideal for **offices, schools, universities, healthcare facilities, hotels, care homes, retail environments, public buildings and contract cleaning companies**. Suitable for cleaning **carpets, entrance matting, corridors, classrooms, bedrooms, reception areas and furnished spaces**, it delivers powerful cordless cleaning performance, exceptional manoeuvrability and reliable commercial durability in demanding professional environments.
