Sebo Brush Strip: For BS36/370 - Hard/Red

Variant code: 16-2046H

Sebo Brush Strip is a **genuine replacement brush roller strip** designed specifically for the **Sebo BS36 and BS370 upright vacuum cleaners**. Engineered to restore effective carpet agitation and dirt removal performance, this replacement brush strip helps maintain the cleaning efficiency and reliability of your vacuum cleaner.

The brush strip plays a vital role in loosening embedded dirt, dust, hair and debris from carpet fibres, allowing the vacuum's suction system to collect particles more effectively. Over time, brush strips naturally wear through regular use, making periodic replacement essential for maintaining optimum cleaning performance.

Manufactured to Sebo's exacting standards, this genuine replacement component provides a precise fit and dependable operation. Its durable bristle construction ensures consistent contact with floor surfaces, helping to maximise cleaning results across a variety of carpeted environments.

Product Features

- Genuine Sebo replacement brush strip
- Designed for Sebo BS36 and BS370 vacuum cleaners
- Restores brush roller performance
- Durable bristle construction
- Helps loosen embedded dirt and debris
- Maintains effective carpet agitation
