Sebo Hepa Exhaust Filter: For BS360/460

Variant code: 16-10109

Sebo HEPA Exhaust Filter is a **genuine replacement filtration component** designed specifically for the **Sebo BS360 and BS460 upright vacuum cleaners**. Engineered to provide high-efficiency exhaust air filtration, this filter helps capture fine dust particles, allergens and airborne contaminants before air is returned to the environment, supporting cleaner and healthier indoor spaces.

As a vital part of the vacuum's filtration system, the HEPA exhaust filter helps maintain optimum cleaning performance while improving air quality during vacuuming. Regular replacement of the exhaust filter ensures the vacuum continues to operate efficiently and helps prevent the release of fine dust back into the surrounding environment.

Manufactured to Sebo's exacting quality standards, this genuine replacement filter provides perfect compatibility and reliable performance. Its durable construction and high filtration efficiency make it ideal for commercial, healthcare, educational and domestic environments where effective dust control is essential.

Product Features

- Genuine Sebo HEPA exhaust filter
- Designed for Sebo BS360 and BS460 vacuum cleaners
- High-efficiency exhaust air filtration
- Captures fine dust and airborne particles
- Helps improve indoor air quality
- Maintains vacuum cleaner performance
- Easy to install and replace
- Durable and reliable construction

Product Benefits

- **Helps improve indoor air quality during vacuuming**
- **Captures fine dust, allergens and airborne particles**
- **Maintains optimum vacuum cleaner performance**
- Supports healthier cleaning environments

- Reduces the release of dust back into the air
- Easy replacement as part of routine maintenance
- Extends filtration efficiency of the vacuum system
- Genuine compatibility ensures reliable operation

Technical Characteristics

- Product Type: HEPA Exhaust Filter
- Compatibility: Sebo BS360 & BS460 Vacuum Cleaners
- Filtration Type: High-Efficiency Particulate Filtration
- Function: Exhaust Air Filtration
- Installation: Replacement Filter
- Genuine Sebo Accessory
- High Dust Retention Capability
- Commercial and Domestic Use

Applications

Sebo HEPA Exhaust Filter is ideal for **offices, schools, healthcare facilities, hospitality venues, retail stores, public buildings and domestic environments** using **Sebo BS360 and BS460 upright vacuum cleaners**. Suitable for maintaining effective filtration and improving air quality during cleaning operations, it helps support hygienic environments and consistent vacuum performance.
