Sebo Hospital Grade Microfilter: For 370

Variant code: 16-1875

Sebo Hospital Grade Microfilter is a genuine high-efficiency replacement filter designed specifically for **Sebo 370 Series vacuum cleaners**. Engineered to upgrade compatible machines to **S-Class filtration**, this advanced microfilter captures **99.9% of particles down to 0.3 microns**, making it ideal for environments where superior air quality and hygiene are essential.

While standard Sebo filtration captures particles down to approximately **1 micron**, this hospital-grade microfilter significantly improves filtration efficiency by removing fine dust, allergens and airborne particles. It is particularly recommended for healthcare settings and other sensitive environments where enhanced filtration is required.

Manufactured to Sebo's exacting quality standards, this genuine replacement filter is easy to install and helps maintain optimum airflow and vacuum performance while providing exceptional filtration. It is the ideal choice for extending the cleaning capability of your Sebo 370 Series vacuum cleaner in professional hygiene-critical applications.

Product Features

- Genuine Sebo hospital grade microfilter
- Designed for Sebo 370 Series vacuum cleaners
- Upgrades compatible machines to S-Class filtration
- Filters 99.9% of particles down to 0.3 microns
- Improves filtration beyond standard 1-micron performance
- Maintains excellent airflow and suction efficiency
- Easy to install and replace
- Recommended for hospital and healthcare environments

Product Benefits

- **Captures 99.9% of particles as small as 0.3 microns**
- **Upgrades Sebo 370 machines to S-**

Class filtration performance
- **Helps improve indoor air quality and hygiene**
- Ideal for healthcare and sensitive environments
- Maintains powerful vacuum performance and airflow
- Supports cleaner exhaust air during operation
- Quick replacement minimises maintenance downtime
- Genuine Sebo quality ensures reliable fit and performance

Technical Characteristics

- Product Type: Hospital Grade Microfilter
- Compatibility: Sebo 370 Series Vacuum Cleaners
- Filtration Rating: 99.9% at 0.3 Microns
- Filtration Class: S-Class Upgrade
- Standard Filtration Improvement: From 1 Micron to 0.3 Microns
- Installation: Direct Replacement
- Application: Fine Dust & Allergen Filtration
- Genuine Sebo Replacement Part

Applications

The **Sebo Hospital Grade Microfilter** is ideal for **hospitals, healthcare facilities, care homes, laboratories, schools, offices and commercial cleaning environments** using **Sebo 370 Series vacuum cleaners**. Designed for hygiene-critical applications, it upgrades compatible machines to **S-Class filtration**, capturing **99.9% of particles down to 0.3 microns** to improve indoor air quality and support infection control procedures.

Property	Value
Filtration Class	S-Class Upgrade
