Sebo Hygiene Filter Sleeve: For X1/X4

Variant code: 16-FIL78

Sebo Hygiene Filter Sleeve is a **genuine replacement filtration component** designed specifically for **Sebo X1 and X4 upright vacuum cleaners**. Engineered to provide effective secondary filtration, this hygiene filter sleeve helps capture fine dust particles while protecting the vacuum's internal components and maintaining optimum cleaning performance.

Working as part of the vacuum's advanced filtration system, the filter sleeve helps improve air quality by trapping airborne dust before clean air is exhausted back into the environment. Regular replacement ensures consistent airflow, maintains strong suction performance and supports the hygienic operation of your Sebo vacuum cleaner.

Manufactured to Sebo's exacting quality standards, this genuine replacement filter sleeve provides a precise fit, long-lasting durability and reliable performance. It is an essential maintenance component for keeping Sebo X1 and X4 vacuum cleaners operating efficiently in both commercial and domestic environments.

Product Features

- Genuine Sebo hygiene filter sleeve
- Designed for Sebo X1 and X4 upright vacuum cleaners
- Provides effective secondary dust filtration
- Helps improve exhaust air quality
- Supports optimum airflow and suction performance
- Protects internal vacuum components
- Easy to install and replace
- Durable long-life filter construction

Product Benefits

- **Captures fine dust for improved air quality**
- **Helps maintain consistent vacuum performance**
- **Protects the vacuum's internal filtration system**
- Supports hygienic cleaning standards
- Maintains efficient airflow throughout
