

Windmill – Combi Oven Cleaner – 5L

Variant code: 04-480

Windmill Combi Oven Cleaner Detergent – 5L: Professional Power for Pristine Ovens

Say goodbye to stubborn grease and baked-on grime with the **Windmill Combi Oven Cleaner Detergent** from AUK Hygiene. This **commercial-grade, highly concentrated 5L formula** is specifically engineered to deliver superior cleaning results in all major brands of **commercial combination ovens** (also known as combi steamers), ensuring your kitchen equipment remains in peak, hygienic condition.

Key features:

- **Professional Strength** – Highly concentrated, heavy-duty formulation for removing tough, carbonised grease, oils, and food residues efficiently.
- **Combi Oven Specific** – Optimised for the internal cleaning systems of combi steamers.
- **High Efficiency** – Rapidly cuts through fat and grime, reducing cleaning time and labour costs.
- **Non-Corrosive Formula** – Safe for use on internal oven components, including stainless steel, glass, and seals, when used as directed.
- **Economical Bulk Size** – The generous **5-litre container** provides excellent value for high-volume, professional catering environments.
- **AUK Hygiene Quality** – Trusted formulation, manufactured to high standards by AUK Hygiene for reliable, professional use.

Why Choose Windmill Combi Oven Cleaner?

In a busy **commercial kitchen**, time is money. Using a dedicated **combi oven cleaner** like Windmill is essential for **food safety compliance** and maintaining the **efficiency** of your expensive cooking appliances.

Residual grime acts as insulation, forcing your oven to use more energy. Regular use of this powerful **degreaser** ensures maximum **heat transfer efficiency**, extending the **service life** of your oven and keeping energy costs down.

This product is formulated to be used with your oven's **in-built cleaning cycle** (often referred to as an automatic or self-cleaning program), making the job simple and reliable.
