

Selgiene Extreme Bactericidal & Virucidal Cleaner – Case 2 x 5L

Variant code: 06-C500

Selgiene Extreme Bactericidal & Virucidal Cleaner is a professional **high-level disinfectant cleaner** developed for use in **healthcare, catering and high-risk environments**. Designed to clean and sanitise **all water-washable surfaces and floors**, its broad-spectrum formulation provides effective protection against a wide range of **bacteria, enveloped viruses and yeast**.

Certified to **EN 1276, EN 14675, EN 13704, EN 14476 & EN 1650**, Selgiene Extreme is proven effective against bacteria including **E. coli, Salmonella and MRSA**, enveloped viruses including **Coronavirus, HIV, Hepatitis C and Influenza**, and yeast including **Candida**. Its **odourless formulation** makes it particularly suitable for professional environments where effective infection control is required without leaving an unwanted fragrance.

Selgiene Extreme can be applied by **spray or mop** and requires a **minimum contact time of 30 seconds** before wiping or rinsing with a clean cloth or mop. Where a **two-stage cleaning process** is required, the product can be used for both the **cleaning and disinfection stages**, providing a practical everyday solution for maintaining high standards of hygiene.

Product Features

- **High-level bactericidal, virucidal and yeasticidal cleaner**
- Certified to **EN 1276, EN 14675, EN 13704, EN 14476 & EN 1650**
- Effective against bacteria including **E. coli, Salmonella and MRSA**
