Diversey Soft Care Plus Foam H42 - Antibacterial Foam Hand Soap - Case of 6 x 700ml

Variant code: 10-H42

Diversey Soft Care Plus Foam H42 is a **gentle antibacterial foam hand soap** developed to provide effective hand hygiene while remaining suitable for frequent daily use. Designed for professional washroom and hygiene environments, the product combines reliable antibacterial performance with a skin-friendly foam formulation, making it ideal for workplaces where high standards of hand hygiene are required.

The soap produces a rich foam that spreads easily across the hands, delivering effective cleansing while using less product than traditional liquid soaps. Its antibacterial formulation helps support workplace hygiene protocols and infection control measures, making it suitable for environments where cleanliness and user safety are important considerations.

Diversey Soft Care Plus Foam H42 is **perfume-free**, making it particularly suitable for use in **food service and food handling environments** where fragranced products may be undesirable. The mild formulation is designed to be gentle on the skin, helping maintain comfort during frequent hand washing throughout the working day.

Product Features

- **Gentle antibacterial foam hand soap**
- Effective cleansing and antibacterial action
- **Perfume-free formulation**
- Rich foam for comfortable hand washing
- Suitable for frequent daily use
- Compatible with professional dispensing systems

Product Benefits
