Soft Cotton Rags - 10kg Box

Variant code: 02-002

Soft Cotton Cleaning Rags are a versatile and economical wiping solution suitable for a wide range of cleaning, maintenance and industrial applications. Supplied in a convenient **10kg box**, these mixed cotton rags are available in **various colours and sizes**, making them ideal for absorbing liquids, polishing surfaces and general-purpose cleaning. Their soft cotton construction provides excellent absorbency while remaining gentle on delicate surfaces.

Produced from quality recycled cotton textiles, these cleaning rags offer an environmentally conscious alternative to disposable wipes without compromising on performance. The soft material is suitable for use with cleaning chemicals, oils, solvents and water-based products, making them a practical choice for workshops, factories, garages and commercial cleaning contractors. The assorted sizes allow users to select the most suitable cloth for each task, helping to reduce waste and improve efficiency.

Designed for professional and industrial use, the Soft Cotton Cleaning Rags provide a cost-effective, reusable wiping solution for everyday maintenance and cleaning tasks across a wide variety of working environments.
