Scott Control - Antibacterial Hand Cleanser - Case of 6 x 1L

Variant code: 10-H4

Scott Control Antibacterial Hand Cleanser is a **professional antibacterial hand cleanser** designed for environments where high standards of hand hygiene and infection control are essential. Developed for use with Kimberly-Clark Professional dispensing systems, this advanced formulation delivers effective antimicrobial performance while remaining gentle on the skin, making it suitable for frequent daily use.

The cleanser conforms to **EN1499 and EN1276 standards** and is proven to **kill up to 99.999% of micro-organisms**. Its fast-acting antibacterial and fungicidal formulation helps support infection prevention programmes in healthcare, food service and other hygiene-critical environments, working rapidly against many common micro-organisms in as little as one minute.

Formulated to be **colour-free and fragrance-free**, the cleanser is dermatologically tested and pH balanced to help maintain skin comfort during regular hand washing. Added moisturising and hydrating ingredients help reduce skin dryness, supporting frequent use without compromising user comfort.

The product is supplied in **high-capacity sealed refill cassettes with integral pumps**, designed specifically for compatible Kimberly-Clark Professional dispensers. The cassette system helps improve hygiene standards, prevents contamination, minimises dripping and clogging, and assists with product usage control while reducing maintenance requirements.

Product Features
