Stainless Steel Scourers - 40g - Pack of 10

Variant code: 12-520

Stainless Steel Scourers are heavy-duty professional cleaning scourers designed for removing stubborn grease, burnt-on food and ingrained grime from cookware, kitchen equipment and hard surfaces. Manufactured from high-quality stainless steel, these durable scourers provide powerful scrubbing performance for demanding commercial and domestic cleaning environments.

Engineered with a dense spiral construction, these professional stainless steel scourers deliver maximum surface contact for efficient and consistent cleaning performance. The durable rust-resistant stainless steel material effectively tackles baked-on residue while maintaining long-lasting strength during repeated use. Ideal for commercial kitchens, catering businesses and heavy-duty cleaning tasks, these scourers provide reliable performance on pots, pans, grills, ovens and industrial kitchen equipment.

Supplied in a convenient **pack of 10 scourers**, each weighing **40g**, these heavy-duty cleaning scourers offer a practical and economical solution for professional cleaners, catering environments and domestic kitchens requiring powerful abrasive cleaning performance.

Product Features

- **Professional stainless steel scourers**
- Heavy-duty spiral scourer construction
- Manufactured from rust-resistant stainless steel
