Stainless Steel Scourers - 18g - Pack of 20

Variant code: 12-525

Stainless Steel Scourers are durable abrasive cleaning pads designed for powerful removal of grease, burnt-on food and stubborn grime from cookware, kitchen equipment and hard surfaces. Manufactured from high-quality stainless steel, these professional cleaning scourers provide reliable heavy-duty scrubbing performance for commercial catering, janitorial and domestic cleaning environments.

Featuring a tightly wound spiral construction, these stainless steel scourers deliver excellent cleaning efficiency and long-lasting durability during repeated use. The rust-resistant stainless steel material effectively cuts through baked-on residue while maintaining its shape and cleaning performance over time. Their compact **18g** size provides excellent flexibility and control, making them ideal for everyday kitchen cleaning tasks and detailed scrubbing applications.

Supplied in a practical **pack of 20 scourers**, these reusable stainless steel cleaning pads offer a cost-effective and dependable cleaning solution for professional kitchens, hospitality venues and domestic households.
