Rubbermaid Standard Neutralle LED Dispensers - Each

Variant code: 06-683

Rubbermaid Neutralle Standard Metered Aerosol Dispenser - LED - Each is a **battery-operated automatic air freshener dispenser** designed to deliver controlled fragrance throughout commercial washrooms and indoor environments. Its metered aerosol system provides convenient, consistent air freshening while helping maintain a pleasant atmosphere.

Originally designed for **243ml Neutralle aerosol refills**, the dispenser offers fragrance coverage of approximately **600 cubic feet**, with each compatible original aerosol lasting up to **60 days**, depending on usage settings.

Powered by **two D-cell batteries** (not included), this dispenser provides automatic operation without mains electricity. Backed by a **10-year warranty**, it offers a practical solution for ongoing commercial air care.

Important: The original 243ml Neutralle aerosols have been discontinued. Existing dispensers can be fitted with a **compatible aerosol adaptor** to accommodate 75ml aerosol refills instead.

Product Features

- **Automatic metered dispensing** for consistent air freshening.
- **LED indicator** for dispenser status.
- **600 cubic feet coverage** for indoor environments.
- **Up to 60 days' fragrance** with original compatible refills.
- **Battery-operated** for flexible positioning.
- **Compatible with 75ml refills** using an appropriate adaptor.
- **10-year warranty** for added reassurance.

Product Benefits

- **Maintains consistent freshness** through automatic fragrance release.
- **Reduces manual spraying** and routine intervention.
- **Supports odour management** in busy
