

Chrome Vacuum Tube 32mm – Bent End

Variant code: 16-HE45

32mm Chrome Vacuum Tube is a high-quality replacement extension tube designed to fit **any vacuum cleaner with a standard 32mm connection**. Manufactured from durable chrome-plated steel, these tubes provide a strong, lightweight and corrosion-resistant solution for restoring or extending the functionality of commercial and domestic vacuum cleaners. Available in **Straight** and **Bent End** variants, they offer the flexibility to suit different cleaning applications and operator preferences.

The **Straight Tube** is ideal for extending the cleaning reach when used with additional extension tubes and floor tools, while the **Bent End Tube** provides an ergonomic handle between the hose and extension wand for improved comfort and manoeuvrability. Both versions feature a universal 32mm push-fit connection, making them compatible with a wide range of vacuum cleaners and accessories.

Built for everyday commercial and domestic use, the chrome-plated finish offers excellent durability and resistance to wear. Whether replacing a damaged tube or adding a spare to your cleaning equipment, these vacuum tubes provide dependable performance and easy installation.

Product Features
