Stripping Floor Pad - Black - 20"

Variant code: 03-S20BK

The **Black Stripping Floor Pads** are heavy-duty floor maintenance pads designed for **wet stripping, deep cleaning and removal of old floor finishes**. Their aggressive black stripping grade is particularly suitable for tackling **heavy layers of emulsion floor polish**, helping prepare suitable hard floors for subsequent cleaning, sealing or refinishing. Available in **13 sizes ranging from 6" to 21"**, these pads offer a versatile solution for professional floor care and restoration.

Designed for use with **compatible rotary floor cleaning machines operating at speeds up to 600 RPM**, the black pads provide intensive scrubbing action to remove stubborn floor coatings and accumulated surface deposits. They can also help eliminate **concrete burns** during suitable floor maintenance operations. Their flexible construction allows the pads to follow slightly uneven floor surfaces, providing effective contact during cleaning and stripping.

Each pad features a **double-sided design**, allowing both surfaces to be used without loss of cleaning efficiency. The manufacturer's standard design also incorporates an **85mm push-out centre hole** to help prevent overheating during operation. After use, the pads can be brushed and rinsed with clean water, then hung to dry to help extend their working life. **Supplied individually**, they are ideal for professional cleaning contractors, facilities management teams and commercial floor maintenance operations.

Product Features

- **Heavy-duty black stripping floor pads** for intensive floor cleaning and restoration
- Available in **13 sizes from 6" to 21"**
- Designed for **wet stripping and deep scrubbing**
- Suitable for removing **heavy layers of emulsion floor polish**
- Helps remove **old floor finishes and stubborn surface deposits**
- Can help eliminate **concrete burns** during suitable floor maintenance applications

- Compatible with appropriate **rotary floor machines operating up to 600 RPM**
- **Double-sided construction** allows both sides of the pad to be used
- **Flexible design** helps maintain contact with uneven floor surfaces
- Manufacturer's standard design includes an **85mm push-out centre hole**
- **Rinseable after use** for convenient cleaning and maintenance
- Suitable for **professional floor stripping and restoration programmes**
- **Supplied individually**

Product Benefits

- **Aggressive black stripping grade** effectively removes heavy layers of emulsion floor polish and old finishes from suitable hard flooring
- **Double-sided construction** allows both sides of each pad to be used, helping maximise its working life and cleaning efficiency
- **Wide selection of diameters** provides options for different compatible floor cleaning machines and maintenance requirements
- **Heavy-duty stripping action** helps prepare floors for subsequent sealing, polishing or refinishing treatments
- **Wet scrubbing suitability** supports intensive cleaning and removal of stubborn floor deposits
- **Flexible pad construction** helps maintain consistent contact across slightly uneven floor surfaces
- Suitable for use with appropriate standard-speed rotary floor machines
- **Rinseable construction** allows accumulated dirt and stripping residue to be removed after use
- **Black colour coding** makes the heavy-duty stripping grade easy to identify
- Suitable for **commercial cleaning and floor restoration programmes**

Technical Characteristics

- **Product Type:** Stripping Floor Pad
- **Pad Grade:** Heavy-Duty Stripping
- **Colour:** Black
- **Available Diameters:** 6", 8", 10", 11", 12", 13", 14", 15", 16", 17", 18", 20" and 21"
- **Minimum Diameter:** 6" (152.4mm)
- **Maximum Diameter:** 21" (533.4mm)

- **Machine Compatibility:** Compatible Rotary Floor Cleaning Machines
- **Maximum Operating Speed:** 600 RPM
- **Cleaning Method:** Wet Use
- **Primary Application:** Floor Finish Stripping
- **Additional Applications:** Heavy-Duty Scrubbing, Old Polish Removal and Floor Preparation
- **Suitable Finish Removal:** Heavy Layers of Emulsion Floor Polish
- **Double-Sided:** Yes
- **Centre Hole:** 85mm Push-Out Centre (Manufacturer's Standard Design)
- **Rinse After Use:** Yes
- **Recommended Maintenance:** Brush and Rinse with Clean Water, Then Hang to Dry
- **Quantity:** Each

Applications

Ideal for **heavy-duty wet stripping, deep cleaning and floor preparation** in schools, hospitals, offices, hotels, shopping centres, warehouses and commercial buildings. Suitable for **removing heavy layers of emulsion floor polish** before refinishing compatible hard floors.
