Scrubbing Floor Pad - Green - 20"

Variant code: 03-S20G

The **Green Scrubbing Floor Pads** are professional-grade floor maintenance pads designed for **intermediate cleaning, wet scrubbing and surface preparation**. Their green abrasive grade is suitable for removing **surface layers of floor wax** and preparing compatible hard floors for subsequent cleaning or finishing processes. Available in **14 sizes ranging from 6" to 21"**, these pads provide a versatile solution for professional floor care.

Designed for use with **compatible rotary floor cleaning machines operating at speeds up to 600 RPM**, the pads provide effective contact with the floor surface, including slightly uneven areas. Their **double-sided construction** allows both sides to be used without loss of cleaning efficiency, helping maximise the useful life of each pad. The manufacturer's standard design incorporates an **85mm push-out centre hole** to help prevent overheating during operation.

Suitable for **wet floor cleaning applications**, the green scrubbing pads can be rinsed after use to remove accumulated dirt and debris. Regular cleaning and appropriate drying help maintain their performance for repeated floor maintenance tasks. **Supplied individually**, they are ideal for commercial cleaning teams, facilities management and professional floor care operations.

Product Features

- **Green scrubbing floor pads** for intermediate floor cleaning and maintenance
- Available in **14 sizes from 6" to 21"**
- Suitable for **wet scrubbing and surface preparation**
- Designed to remove **surface layers of floor wax**
- Helps prepare suitable flooring for **subsequent maintenance or finishing processes**
- Compatible with suitable **rotary floor machines operating up to 600 RPM**
- **Double-sided design** allows both sides to be used
- Flexible pad construction helps maintain

contact with **uneven floor surfaces**
- Manufacturer's standard pad design features an **85mm push-out centre hole**
- **Rinseable after use** to remove accumulated dirt and debris
- Designed for **repeated professional floor maintenance**
- **Supplied individually**

Product Benefits

- **Intermediate scrubbing action** helps remove surface wax layers and prepare floors for subsequent maintenance treatments
- **Double-sided construction** allows both sides of each pad to be used, helping extend its working life
- Wide selection of diameters provides options for different compatible floor cleaning machines
- **Wet cleaning suitability** supports effective removal of accumulated surface deposits
- **Flexible pad construction** helps maintain consistent cleaning contact across slightly uneven flooring
- Compatible with appropriate standard-speed rotary floor machines
- **Rinseable design** allows pads to be cleaned and maintained between uses
- **Green colour coding** helps operators identify the intermediate cleaning grade
- Suitable for **commercial floor maintenance and preparation programmes**

Technical Characteristics

- **Product Type:** Scrubbing Floor Pad
- **Pad Grade:** Intermediate Cleaning
- **Colour:** Green
- **Available Diameters:** 6", 8", 10", 11", 12", 13", 14", 15", 16", 17", 18", 19", 20" and 21"
- **Minimum Diameter:** 6" (152.4mm)
- **Maximum Diameter:** 21" (533.4mm)
- **Machine Compatibility:** Compatible Rotary Floor Cleaning Machines
- **Maximum Operating Speed:** 600 RPM
- **Cleaning Method:** Wet Use
- **Primary Application:** Intermediate Floor Cleaning
- **Additional Application:** Surface Wax Removal and Floor Preparation
- **Double-Sided:** Yes
- **Centre Hole:** 85mm Push-Out Centre
