

Suma Bac D10 Detergent Disinfectant – 5L

Variant code: 04-D10

Suma Bac D10 is a highly concentrated detergent surface sanitizer for one-step cleaning and disinfection. The formulation contains a combination of quaternary ammonium compound, a sequestering agent and buffer to ensure it is effective against a wide range of micro-organisms in all water conditions.

The formulation also contains surfactants to provide excellent cleaning power. It cuts through grease and even dried on food soiling making it an ideal choice for food service customers conscious of food safety.

Suma Bac D10 has been tested by an independent laboratory using the European Standard Test Method EN1276. The product can be used to clean and sanitise in one step and can be applied directly to the surface or by using a cloth or a brush. It is then left for at least five minutes before it is rinsed with clean water and left to dry.
