

Suma Rinse A5 Safe Pack 10L

Variant code: 04-A5

Suma Rinse A5 is a professional **neutral machine dishwash rinse aid** formulated to promote fast and effective drying following automatic warewashing. Supplied in a **10L SafePack**, it is designed for use across a **wide range of warewashing machines** and is particularly suited to operations using **soft to medium-hard water**.

The formulation contains a specially selected blend of **non-ionic surfactants** that promotes **rapid, spot- and streak-free drying** across cleaned surfaces. By helping water drain effectively from washed items during the final rinse stage, Suma Rinse A5 supports consistently clean presentation of professionally washed tableware and kitchenware.

A **low-foaming formulation** helps support efficient machine operation, making Suma Rinse A5 a practical choice for busy professional warewashing environments. The **10L SafePack** format provides a dedicated professional dispensing solution for commercial kitchens requiring reliable and consistent rinse-aid performance.
