Sun Screen Board with Mirror - Includes SC Johnson Deb Stoko Sun Protect SPF50 PURE - 1L

Variant code: 10-ADSB

Sun Screen Board with Mirror is a **complete workplace sun protection station** designed to encourage regular sunscreen application in outdoor working environments. Supplied with a **1L cartridge of SC Johnson Deb Stoko Sun Protect SPF50 PURE**, this ready-to-install system provides a practical and highly visible solution for protecting workers from harmful UV exposure throughout the working day.The robust wall-mounted board incorporates an integrated mirror, making sunscreen application quick and convenient while encouraging compliance with workplace sun safety programmes. Positioned at site entrances, welfare areas, depots or outdoor workstations, the system helps remind employees to apply sun protection before and during outdoor activities.

Included with the board is **SC Johnson Deb Stoko Sun Protect SPF50 PURE**, a professional-grade sunscreen offering **high-level UVA and UVB protection**. The sunscreen is designed specifically for occupational use and features a **non-greasy, water-resistant formulation** that absorbs quickly into the skin without affecting grip or dexterity when handling tools and equipment.

Product Features

- **Complete workplace sun protection station**
- Includes **SC Johnson Deb Stoko Sun Protect SPF50 PURE 1L cartridge**

programmes and employee well being
- **Improves visibility and accessibility** of sunscreen at the point of use
- **Promotes compliance with health and safety procedures** for outdoor work
- **Provides a convenient application point** before and during outdoor activities
- **Reduces the risk of prolonged UV exposure** in high-traffic workplace environments

Technical Characteristics

- Supplied with **1L SC Johnson Deb Stoko Sun Protect SPF50 PURE cartridge**
- Includes integrated mirror and mounting board
- Designed for wall-mounted installation
- Suitable for use with compatible SC Johnson sunscreen cartridges
- Durable construction for workplace environments
- Easy-access dispensing for regular daily use

Applications

The Sun Screen Board with Mirror is suitable for **construction sites, highways maintenance operations, utilities contractors, transport depots, agricultural businesses, landscaping teams, local authorities and outdoor industrial workplaces** where employees are exposed to sunlight during the working day. By providing a dedicated sunscreen application point, the system helps organisations promote safer working practices and support effective UV protection programmes across outdoor environments.

Property	Value
Volume (L)	1
How to Use	Mount the board in a visible workplace location. Insert a compatible Stokoderm® Sun Protect 1L cartridge into the dispenser. Use the mirror to aid sunscreen application and display the daily UV index using the supplied holder and cards.
