

Rubbermaid TC AutoFoam Alcohol Plus Hand Sanitiser – 1000ml

Variant code: 10-2146691

Rubbermaid TC AutoFoam Alcohol Plus Hand Sanitiser is a high-performance foam sanitising solution designed to provide **rapid and effective hand hygiene** in professional and public environments. Developed for use with compatible automatic dispensing systems, it delivers controlled, touch-free sanitising performance for hygiene-critical areas.

This alcohol-based foam sanitiser helps reduce the spread of germs and contamination while providing quick-drying hand sanitisation without the need for water. The foam format ensures efficient coverage across the hands while minimising drips and product waste during use.

Designed specifically for use with **TC AutoFoam automatic dispensers**, the refill cartridge delivers a controlled **0.4ml dose per application**, supporting economical usage and consistent hygiene standards in high-traffic environments.

Supplied in a sealed **1000ml refill cartridge**, the product is suitable for professional washrooms, healthcare facilities, workplaces and public spaces where reliable, touch-free hand sanitising is required.

Product Features

- Alcohol-based **foam hand sanitiser**
- Designed for **automatic touch-free dispensers**
- Controlled **0.4ml dose per application**
- Quick-drying sanitising action
- Foam format for efficient hand coverage
- Sealed **1000ml refill cartridge**

Product Benefits

- Supports high standards of hand hygiene
- Reduces cross-contamination through touch-free dispensing
- Minimises product waste with controlled dosing
- Fast and convenient sanitising without water

- Suitable for high-traffic professional environments
- Helps maintain clean and hygienic washroom facilities

Technical Characteristics

- Capacity: **1000ml**
- Dose per application: **0.4ml**
- Foam alcohol sanitising formulation
- Compatible with TC AutoFoam dispensers
- Sealed refill cartridge system
- Use in accordance with manufacturer guidelines

Applications

Rubbermaid TC AutoFoam Alcohol Plus Hand Sanitiser is suitable for use in **commercial washrooms, healthcare environments, offices, education facilities, hospitality venues and public buildings**. It is ideal for hygiene-critical areas requiring **touch-free foam hand sanitising** with controlled dosing and efficient operation.
