### Maximise Efficiency in High-Traffic Washrooms with Tork H5 Universal PeakServe® Hand Towels

Elevate your washroom experience and streamline maintenance with the innovative Tork H5 Universal PeakServe® hand towel system. Specifically engineered for high-traffic environments, PeakServe® empowers your staff to dedicate more time to cleaning and less to refills, ensuring a consistent and positive experience for users.

Our compressed hand towel refills offer significantly increased capacity, drastically reducing the frequency of maintenance interventions. The unique continuous dispensing system ensures a smooth, uninterrupted flow of towels, even between bundles, eliminating frustrating hold-ups and improving washroom efficiency. Furthermore, the one-at-a-time dispensing mechanism promotes superior hygiene and helps control consumption, contributing to cost savings.

### Key Benefits for Your Business:

- **Reduced Maintenance Time:** High-capacity, compressed refills minimise the need for frequent restocking, freeing up staff for other critical tasks.
- **Improved Washroom Flow:** Continuous dispensing prevents bottlenecks and ensures a seamless experience for washroom users, enhancing satisfaction.
- **Enhanced Hygiene:** One-at-a-time dispensing limits contact with unused towels, promoting a cleaner and more hygienic environment.
- **Cost Efficiency:** Controlled dispensing reduces overall towel consumption, leading to significant cost savings over time.
- **Easy Storage and Handling:** The compressed refills are designed for efficient storage and effortless transportation, simplifying your supply chain.
- **Flexible Topping Up:** Refills can be easily topped up at any time, preventing run-

outs and maintaining a consistently stocked washroom.

**Ideal for:** High-traffic washrooms in offices, hospitality venues, healthcare facilities, educational institutions, and any environment where efficiency and user experience are paramount.
