# Tork S1 Sensitive Hygienic Hand Soap Unfragranced - 6 x 1L

**Variant code: 10-218**

**Tork S1 Sensitive Hygienic Hand Soap Unfragranced** is a professional hand cleansing solution developed to provide **extra hygienic hand washing** in hygiene-sensitive environments. Designed for use in food processing areas, kitchens and professional washrooms, it helps support high hygiene standards while remaining gentle on skin.

This **perfume and colour-free formulation** reduces the risk of skin irritation and allergic reactions, making it suitable for frequent use and sensitive skin environments. Approved according to **European Norm EN1499**, the soap helps reduce the risk of food contamination associated with poor hand hygiene practices.

The dermatologically considerate formula is designed to be both **skin friendly and environmentally responsible**, carrying the **Nordic Ecolabel certification**. Suitable for hygiene-critical workplaces, it provides reliable cleansing performance while supporting sustainable washroom management.

Supplied in hygienically sealed **1L refill cartridges**, each bottle includes a **single-use pump system** to help minimise contamination risks and support hygienic dispensing. The refill bottle is also designed to collapse after use, helping reduce waste volumes in professional environments.
