Tork Salubrin Hand Gel Sanitiser S1 - Case of 6x 1L

Variant code: 10-910103

Tork Salubrin Hand Gel Sanitiser S1 is a **high-performance alcohol-based hand sanitiser** formulated to deliver effective hand disinfection and support infection prevention in professional environments. Containing **70% (w/w) denatured alcohol**, the sanitiser rapidly eliminates microorganisms and helps reduce the spread of infections, making it ideal for everyday hand hygiene in workplaces, healthcare settings and public facilities.

The advanced formula is effective against a broad range of microorganisms, including **enveloped viruses**, providing reliable protection where high hygiene standards are essential. The sanitiser conforms to **EN 1500** for hygienic hand disinfection and **EN 14476** for virucidal activity against all enveloped viruses, including HIV, SARS Coronavirus, HBV, HCV, Influenza H1N1 and H5N1.

Unlike many alcohol-based sanitisers, the formulation contains **moisturising ingredients** that help maintain skin comfort and reduce dryness associated with frequent sanitising. The pleasant skin feel encourages regular use and supports good hand hygiene practices in busy environments.

Designed for use with the **Tork S1 Liquid Soap Dispenser System**, the sealed refill bottle promotes hygienic dispensing while simplifying maintenance and refill procedures. Supplied in a **case of 6 x 1L bottles**, Tork Salubrin Hand Gel Sanitiser provides an effective and economical solution for maintaining high standards of hand hygiene.

Product Features
