Tork Xpressnap Fit® N14 Dispenser Napkins - White - 6 × 720 Sheets

Variant code: 01-15830

Tork Xpressnap Fit N14 White Dispenser Napkins are compact and efficient dispenser napkins designed for professional foodservice environments where space, hygiene and consumption control are important. Developed for use with the **Tork Xpressnap Fit dispensing system**, these napkins provide reliable dispensing performance while helping reduce waste and improve operational efficiency.

The Xpressnap Fit system is specifically designed for smaller restaurants, cafés, kiosks and takeaway environments where dispenser space may be limited. The controlled one-at-a-time dispensing method helps reduce unnecessary napkin usage while improving hygiene by ensuring users only touch the napkin they use. This contributes to lower consumption levels, reduced waste and improved cost control during daily service.

Manufactured in a clean white finish, these dispenser napkins provide a professional appearance suitable for customer-facing environments. The high-capacity refill format helps minimise refill frequency, supporting efficient front-of-house operations and improving service continuity during busy periods.

Product Features
