# Windmill - Touch Cleanse - Alcohol Free Hand Sanitiser - 1L

**Variant code: 10-825**

## Windmill - Touch Cleanse - Alcohol Free Hand Sanitiser - 1L: Gentle Protection, Powerful Hygiene

Introducing the next generation of **hand hygiene** from AUK Hygiene: the **Windmill Touch Cleanse Alcohol Free Hand Sanitiser**. This high-capacity 1-litre cartridge refill offers an effective, skin-friendly alternative to traditional alcohol-based products, delivering rapid, certified protection without the drying, irritation, or flammability risks.

### Product Features and Benefits

| Feature | Benefit |
|---|---|
| **Alcohol-Free Formula** | Non-drying, gentle on **sensitive skin**, and safe for frequent, daily use. **No fire risk.** |
| **Exceptional Efficacy** | Kills **greater than 99.99%** of *E. coli* and **99.999%** of **MRSA** in 1 minute. Complies with key European standards. |
| **Triclosan Free** | Safer formulation for both people and the environment. |
| **High-Volume Cartridge (1L)** | Provides up to **1000 pumps** per cartridge, offering a low-maintenance, cost-effective, and long-lasting supply. |
| **Touch Cleanse Range** | Designed for use with the high-quality, wall-mounted AUK Hygiene Windmill cartridge dispenser system. |

### Beyond the Burn: Why Choose Alcohol-Free Over Bog-Standard Alcohol Sanitisers

Are you tired of the stinging, dryness, and chapped skin that comes with frequent use of

high-percentage alcohol gels? The **Windmill Touch Cleanse** offers a superior experience for both hands and health and safety:

- **Kind to Skin:** Unlike alcohol sanitisers which strip away the natural oils and moisture barrier of your skin, our non-alcohol formula is inherently **kinder and less irritating**, making it the ideal choice for staff, customers, and children who need to sanitise multiple times a day.

- **Zero Flammability Risk:** High-alcohol solutions are classified as flammable, presenting a minor but present fire hazard in high-volume environments (e.g., schools, hospitals, food prep areas, and warehouses). Our non-flammable formula eliminates this concern, offering a **safer sanitising solution**.

- **Residual Protection (Non-Flammable):** Alcohol's germ-killing action is immediate but short-lived, as it evaporates instantly. The biocides in a quality non-alcohol formulation like Touch Cleanse may provide a more persistent effect, meaning your hands stay protected for longer.

Make the switch to a powerful, gentle, and safer hand hygiene solution that prioritises **skin health** without compromising on germ-killing effectiveness.

## Frequently Asked Questions (FAQ)

Answering your most common queries about our premium alcohol-free sanitiser.

**Q: Is the Windmill Touch Cleanse as effective as an alcohol-based sanitiser?A:** Yes. Our formula is rigorously tested and certified to key European standards, including **BS EN 1276** (killing 99.9% of germs in 30 seconds), **BS EN 1500** (hygienic handrub standard), and **EN 14476** (virucidal efficacy). It is proven to be effective against a range of harmful microorganisms, including *E. coli* and MRSA.

**Q: What is the active ingredient in this alcohol-free sanitiser?A:** The formulation uses a mixture of highly effective **biocides** to quickly eliminate unwanted bacteria and viruses on the skin. *Note: For full ingredient details, please refer to the*

*Safety Data Sheet (SDS).*

**Q: Where can this 1L cartridge be used?A:** This **1L refill** is designed for use in professional, high-traffic environments, including **schools, offices, food service, hospitality, retail, factories, and care homes**. It must be used with the designated AUK Hygiene Windmill cartridge dispenser.

**Q: Is it safe for children to use?A:** Yes, the non-flammable and gentle nature of the **alcohol-free formula** makes it an excellent choice for use in primary schools, nurseries, and all environments where children are present, significantly reducing the risk of irritation and accidental ingestion associated with high-alcohol products.

**Q: Does it leave a sticky residue?A:** No, the **Touch Cleanse** formula is designed to be quick-acting and to dry fast without leaving any sticky or greasy residue, ensuring a pleasant user experience.
